DIAMOND ROBBERY.

\$5,000 Worth of Jewels Mysteriously Stolen.

The Thieves Seemed Acquainted With the Premises.

Daly the Diamonds and \$300 in Money Carried Off.

A heavy diamond robbery that took place peveral days ago, and which every effort has en made to hush up, is brought to light by THE EVENING WORLD to-day.

Smanuel H. Hoexter lives with his wife and eighteen-year-old daughter at 306 East One Hundred and Sixteenth street,

This number is a four-story apartment house and the Hoexter family occupy the vestern upper flat.

Last Saturday Mr. Hoexter took his wife md daughter down town to see the Demoratte hosts parade. His apartments were neked and he supposed unoccupied during

heked and he supposed unoccupied during his absence.

Mr. Hoexter was away about three hours, and when he and his family returned home they found that about \$5,000 worth of valuable diamonds and jewelry and \$300 in money had been stolen during their absence.

The robbery is a very mysterious one. Mr. Hoexter is certain that the jewels were in his apartments when he went to the parade. He discovered his loss soon after reaching his house in the afternoon and reported it at once to Inspector Syrnes.

Detectives were immediately instructed to investigate the case, but so far have not heen able to fasten the theft on any one.

Mr. and Mrs. Hoexter have been enjoined to say nothing to any one about their loss, and will give no satisfactory explanation of how it happened if they know, which is, of course, doubtful.

Servants are employed in the house, and their movements are under close surveilance.

The facts about the robbery have been kept so quiet that all the neighbors know about it is that some jewelry was lost on Saturday by Mrs. Hoester. They know nothing of the value.

Nearly all of the missing jewelry was wedding gifts.

The most remarkable part of the robbery is

The most remarkable part of the robbery is that nothing but the jewelry and money were disturbed, the thief or thieves showing an unusual knowledge of the locality.

Buring the absence of the family at the parade, some neighbors heard a noise in the Hoexter flat, but thinking that it was made by some one who belonged on the premises, did not interfere.

That's What Mayor Hewitt Says About His Own Interview About West.

Mayor Hewitt's attention was to-day ted to the report of an interview had with him yesterday on the subject of the President's order in sacking Lord Sackville-West, in which he (the Mayor) is quoted as saying that the President's action "indicated that there is to be an election on Tuesday next. If there were no approaching election that the president's action in the continuous continuous and the sacket in the continuous action the sacket in the sack on Tuesday next. If there were no approaching election there would probably be more deliberation about it. This is a national affair. Nations move slowly. Ordinarily such action would require at least a month."

Mr. Hewitt read this portion of the interview carefully, and then said:

"That interview is reported correctly. I so expressed myself. It was a joke, and it's very queer that I cannot joke without being taken up seriously. Probably these critics never joke, but my life would be very dreary if I never did."

A BANK PRESIDENT.

xperts Open the Big Vault of the Fulton National Bank in Brooklyn—They Had to De It, Because the Cashjer Cauldn't —A Bolt Fell Out of Place and Kept the Bank's Resources Under Lock.

At 3.30 o'clock this morning the steelbound vault of the Fulton National Bank of Brooklyn was cracked by a gang of expert afe-breakers.

The vault contained all the bank's valuables and securities to the amount of many thousands of dollars, but strange to say, not a cent was found missing this morning, alhough as a piece of safe-cracking, the job was one of the most successful on record.

As a matter of fact it was simply a friendly act of burgling, that was entered into with the full consent of President Hazzard and Cashier Noxsen, and accomplished, much to

their satisfaction.

The gang of cracksmen were led by E. M.
Hendrickson, the safe manufacturer, of
Brooklyn, who built the vault twenty years

Brooklyn, who built the vault twenty years ago.

He and his men had been working on a refractory lock on the inner door of the vanit ever since 9 o'clock yesterday morning.

Shortly before that hour the paying-teller, Mr. Kenmore, had arrived at the bank, and according to his usual custom had proceeded to open the vault to get the books out. The outer door worked rather stiffly, but when he came to the iron door of the inner compartment, although the combination worked all right, the boit would not move, and all efforts to open the door proved unsuccesful.

The discovery created some consternation among the officers of the bank, and Mr. Hendrickson, the maker, was sent for immediately. He said it might take three days to get it open, and that made 'he bank officials still more furied, because the closing-up business of the month is always beavy, and any delay would put them away back in their business and give their depositors lots of trouble.

A kit of hyspelars' tools and a care of some

business and give their depositors lots of trouble.

A kit of burglars' tools and a can of gunpowder were brought into requisition by the friendly cracksmen and they began their work at once. It was not found necessary to use the gunpowder, for by cutting a jagged piece out of the steel door of the vault the bolt which had fallen out of place was exposed and the cause of the difficulty quickly removed.

Everything in the vault was found to be in order, and this morning business at the bank was resumed at the usual hour. The only difference was that the clerks had to work livelier, and will probably have to stay after hours to-night to straighten out the books.

Yesterday the necessary exchanges were made by giving depositors and customers checks on other banks.

HE JOB DONE WITH THE CONNIVANCE OF AND THE ARREST OF CONEY ISLAND'S DEPOSED BOSS IS IMMINENT.

Judge Collen Fixes Ball at \$5,000 Each, and District-Attorney Ridgway Promises to Arraign the Seven Mes on Monday— More Slices of Quay's \$25,000 to Be Paid Out for Catching Republicans.

Seven men who were arrested for colonizaion by the New York police last night were brought to Brooklyn early this morning in harge of Detectives McNaught, McCloskey, Sheldon, Mulvy, Mulry, Cosgrove and

Handy. Previous to their arrival Lawyer Pearsall walked into District-Attorney Ridgway's office and said that Moritz Herzberg understood a warrant had been issued for his arrest and he wished to surrender. A few minutes later Hergberg appeared, accompanied by ex-Judge Morris

later Herzberg appeared, accompanied by ex-Judge Morris.

The prisoners were then taken upstairs and arraigued 1 e ore Judge Cullen.

Aloritz Herzberg was first arraigued. He pleaded not guilty to a charge of bringing men over to register illegally.

District Attorney Ridgway saked that an examination be made at once, but on motion of the defendant's counsel, the rexamination was set for Saturday morning at 11 o'clock.

The District-Attorney then begged that \$19,000 ball be required to insure the prisoner's appearance, for, he said, there was over a dozen complaints against him, and he wanted to make sure of his appearance. He wishes to present the case to the Grand Jury on Monday morning.

Judge Cullen set ball at \$5,000. Aaron Herzberg was then arraigned and his case was similarly disposed of.

At this ex-Judge Morris jumped to his feet and said that he understood that there was a warrant out for the arrest of Supervisor John Y. McKane.

All the accused men pleaded not guilty and were remanded to Raymond Street jail until Saturday morning.

McKane brought Joseph Kuntz, the New

\$140,000.
District-Attorney Ridgway to-day received two copies of the Gravesend registration books, and it shows a registration of 1,400 voters. This is for two days only. Last year's total registration only amounted to 800 men, and this fact, together with the confession of George Birney, one of the prisoners, shows that wholesale colonization has been attempted by the Herzbergs.

bergs.

Much surprise is expressed that McKane should drive to Headquarters to ball out the accused colonizers. It was expected that he would pose as a martyr and claim that it was a "job" put up by the "Boss" McLunghim crowd. His personal appearance and deep interest in the matter in company of Herzberg settles the question of guilt in the opinion of the detectives and will probably lead to the arrest and prosecution of McKane.

Kane.

Headquarters detectives have warrants for hundreds of colonizers who left the city to vote at Coney Island, and they will be arrested before or on the day of election.

It is a curious fact that all the money drawn from the Republican National Committee should be for the arrest of voters colonized to swell Harrison's vote, John Y. Me-Kane having declared his intention to support the Republican National, State and county tickets.

YOUNG MRS, BLAINE WORSE,

The change for the better in Mrs. James G. Blaine's condition proved but of tempor-

ary duration, and a sudden and alarming change for the worse during last night led once more to fears that the girl-wife was approaching her end.

Indeed her condition was so serious that her physicians were hurriedly sent for. Under their timely administration she again rallied somewhat, and this morning was pro-

railled somewhat, and this morning was pro-nounced somewhat better.

Her mother, Mrs. Nevins, remains by her bedside, refusing to see any visitors.

Mrs. James G. Blaine, sr., arrived from Augusta last night, but made no effort to see her daughter-in-law then, although it was rumored that a reconcillation was about to be effected.

Williams collected \$150 on Saturday from re-tail grocers in the vicinity of Bayard street and ran away. He is supposed to be in Chi-

He played a similar trick in January, and ran off, but became stranded in Chicago, and sent numerous pathetic letters, until Mr. London, who is very old, forgave him and reinstated him in the bakery.

Williams is very fond of races and policy playing, and the bulk of his embezzlements has gone in that direction. He left his wife in destitute circumstances, with a ten-months babe that is very ill.

"CLEVELAND WILL NOT DARE TO SEND LORD SAURVILLE HOME."

But When He Heard the News Last Night His Albany Speech was "Dectored" to Provent from Appearing Funny Before the American People—His Prediction Was as Rush as Minister West's Letter.

ALBANY, Oct. 31.—The Associated Pres report of Blaine's speech in Albany yester-day was "doctored" last evening to suit the afternoon news from Washington concern-

ing Sackville. The Associated Press report follows the sentence, "What they are doing is trying to get the English Prime Minister in London to recall him," with these words : "Mr. Phelps the American Minister in London, as we go news over the cable, is dining out at Hatfield with Lord Salisbury," &c.

Between these two sentences Blaine said.

and was applauded as he spoke : " Three foreign Ministers in the history of our Governeign ministers in the history of our Govern-ment thus far have had their passports given them at Washington for doing less than Lord Sackville has done in intervention with our affairs, and Mr. Bayard or President Cleveland, netther one of them (I make that prediction to-day—there is a week left of the campaign) will dare to send Lord Sackville home."

home."
The stenographic report for both the Associated Press and the United Press contained these words.
The United Press report sent the special as delivered.
The Associated Press report was prepared by the Albany Express, and as the news of Sackville's dismissal was received in that office before Blaine's speach was sent out the speech was 'doctored" by striking out the words quoted.

PRECIAL TO THE EVENTION WORLD. MONTREAL, Oct. 31 .- Sir John Macdonald, the Canadian Premier, was at Sherbrooke, where he was preparing to attend banquet to the Hon. J. H. Pope, when THE EVENING World correspondent approached him and told of President Cleveland's action dismissing Lord Sackville from Washington.

"What is your opinion of the matter? What do you think of President Cleveland's action?" was asked. Bir John replied as follows:

Sir John replied as follows:

"Directly criticising any action of the President of the United States is not one of my weaknesses, but if you want to know what I think of the condition of affairs brought about by Lord Sackville's indiscretion, I will say that it is unfortunate—unfortunate and deplorable to the last degree. That Lord Sackville was indiscreet no one with a grain of common sense will deny. But he was only indiscreet in characterizing the actions of President Cleveland and Congress as electioneering dodges.

"I forget who it was who first gave utterance to the saying that a successful diplomatist is a born liar. At all events, I am certain that Sackville has not been successful."

Democrats were jubilant and loudly praised the President for his pluck and sound Amer

Among Irish-Americans the effect of the dismissal of Sackville-West has been to make them more loyal to Cleveland.

An Eveness World reporter interviewed fifty-one Irish Americans on the docks this morning. Firty-eight of them were Democrats and entitusiastic in their praises of Cleveland. The other three were Ropublicans, but two of them announced their intention of voting for the man who had shown his spunk in demanding protection for American habermen in British waters and had promptly fired the Minister of the Queen when he presumed to talk politics and inveigh against the sincerity of the American Government.

While the reporter was among this body of sturdy workingmen an inebriated fellow came along, and just as he reached the spot he shouted: "Tab for Harrison!"

In a twinkle a dozen of the dockmen seiged him and pitched him into the river. He was pulled out a wetter, a sadder, a subsert and a wiser man.

"What will be the political effect?" asked the reporter.

"Oh, I am speaking as an American rather than as a Democrat. No Minister should be allowed to meddle with the Government to which he is assigned. As to the political effect, it can be but good for the Democratic
